THERE IS CLEAN...

1

VTW CLEAN IS MORE CONSISTENT.

The VTW consistently and thoroughly removes road grime, salt, and mud from the outside and underside of your equipment.

2

VTW CLEAN IS FASTER.

A typical wash cycle is 1-3 minutes vs. 20 minutes or more with a handheld power washer.

3

VTW CLEAN IS EASIER.

The VTW makes cleaning the vehicle easier, which means it will be done more often, guaranteeing your fleet is maintenance-ready.

4

VTW IS MUCH SAFER.

Keeping the driver in the vehicle during the washdown process will reduce the probability of injury.

5

VTW REDUCES ENVIRONMENTAL FOOTPRINT.

The VTW uses high-pressure water instead of high-volume water to clean the mess off your vehicles. The end result is you get a consistently cleaned vehicle using less than 1/2 the water of a manual wash.

Then there is VTW Clean.

VTW CYCLONE UNDER WASH

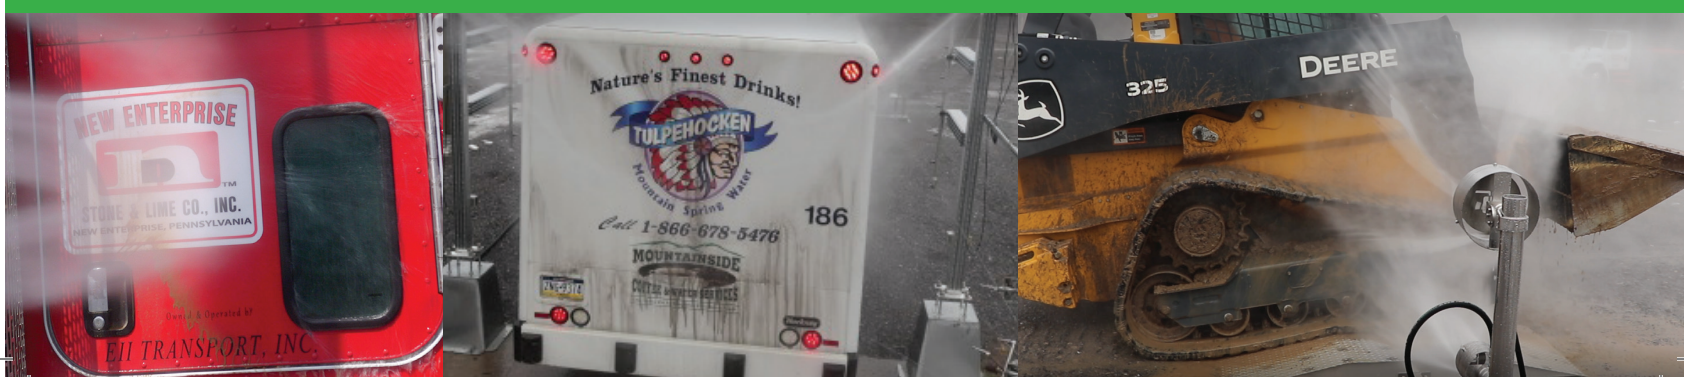

DESCRIPTION:	FOCUS:	CYCLES:	ESTIMATED WASH TIME:	VEHICLE POSITIONING SYSTEM:	ESTIMATED GALLONS PER WASH:
1 Stage Drive over 45 gpm 1000 psi 6 rotating nozzle arms	Under Carriage Wheels/Tires Side Panel/Fenders	1	45 seconds	NO	34

VTW 360 TRUCK WASH

DESCRIPTION:	FOCUS:	CYCLES:	ESTIMATED WASH TIME:	VEHICLE POSITIONING SYSTEM:	ESTIMATED GALLONS PER WASH:
2 Stage Pull through frame and drive over 45 gpm 1000 psi 10 rotating nozzle arms	Under Carriage Wheels/Tires Side Panels/Fenders Cab Hood, Wind Shield, Roof	3	60 seconds	NO	45

DESCRIPTION:	FOCUS:	CYCLES:	ESTIMATED WASH TIME:	VEHICLE POSITIONING SYSTEM:	ESTIMATED GALLONS PER WASH:
3 stage w/ stop Pull through frame and drive over 45 gpm 1000 psi 20 rotating nozzle arms 10 cycles with stop	Under Carriage Wheels/Tires Side Panels/Fenders Cab Hood, Wind Shield, Roof Vehicle Positioning System stops truck in same place every time for intense top/down tailgate wash	10	180 seconds	YES	135

VOCATIONAL VTW TRUCK WASH

ENGINEERED TO CLEAN YOUR VEHICLE

Not all vehicles are the same - Not all messes are the same.

The **Vocational Truck Wash (VTW)** attacks that mess
with up to 200 nozzles directing 1000 psi water.
